Message from President, WCBO

Dear WCBO Members and Chessboxers.....

It is utmost honour to invite you to the 5th World Chessboxing Championship in Riccione, Italy from 28th October to 2nd November 2023.

I hope this 5th World Championship will break all the previous record with good numbers of athlete & countries who will join the event at a wonderful place of Italy.....Riccione, under the leadership of Mr. Volfango Rizzi, President, Italiana Chessboxing Federation.

This World Championship lays the very foundation of our sport and in the long run will provide its legitimation. Chessboxing has reached 5 continents and is developing rapidly all over the world. Team WCBO is putting constant efforts for it's goal to reach Olympic and to provide suitable environment to the Chessboxers.

All the previous edition were true festive of sportsmanship and it was incredible with the presence of IEPE, but it will be with the memories of IEPE and his dedication in the World of Chessboxing, I am sure he will be happy with this event.

I would request all the affiliated members to show up with your team and attend the WCBO Annual General Meeting at the same venue of World Championship, Italy.

Another aspect that I truly enjoyed was the amazing growth of some of athlete throughout the tournament. Starting as an inexperienced chessboxer and ending up as an experienced chessboxer. In this sense I can't wait for the fifth edition and seeing you all in Riccione.

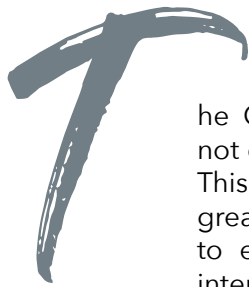

Love to Iepe

MESSAGE FROM BONACCINI PRESIDENT

The Chessboxing World Championships will take place not only in Italy but for the first time also in all of Europe. This is a great honour for us and the reaffirmation of the great effort our Region is making, unprecedented in Italy, to establish a full-spectrum calendar of national and international sporting events. We believe that sports are an exceptional driver for promotion of the local area and economy. They are also key in disseminating positive values and we continue to invest in them with conviction.

Regione Emilia-Romagna

We have made all our facilities fully available to FISP (Italian ChessBoxing Federation). I do not believe there are first- or second-league sports, series A or series B. As far as I am concerned, this distinction should be abolished: it makes no sense to classify sports on the basis of their TV audience or number of newspaper headlines. Sports are about the passion and dedication of all involved, whether athletes, trainers, managers, or spectators, and it is always the same: 100%.

I am eagerly looking forward to an event that will surely attract an ever-growing audience and wish you the greatest of success for such an important event. Here's to an excellent Chessboxing World Championship!

STEFANO BONACCINI

President Regione Emilia-Romagna

Regione Emilia-Romagna

ear chessboxing friends around the world, we welcome you to Riccione, Italy to participate in the **5th WCBO Chessboxing World Championships**. This will be the first ever Championships, in tournament

format, to be held in Europe, the first ones outside Asia where the previous four editions were held. It will also mark three 20th Anniversaries: the anniversary of the birth of chessboxing (September 2003), the birth of the first WCBO and, the 20th Anniversary of the first Chessboxing World Championships (November 2003) that was won, on 11th round, by **Iepe Rubingh**, the inventor of our sport, in memory of whom we are holding these Championships.

To double mark history, we shall hold the very **1st Chessboxing Light World Championships**: you are all welcome to enter and compete in this one as well. The Chessboxing Light Rules were invented and developed in Italy - and first tested in 2015 - and we are happy that we can launch on a World level, this version of chessboxing where there is no KO, where punches cannot be sunk, and which is fought with headgears and bigger gloves. In addition to this, after the first trial in Antalya last year, there will also be a **Chessboxing-Fit World Championships**, a variant of chessboxing that opens the sport to anyone who can play chess but might not be interested in punching another person and getting punched as, the boxing rounds, are only done with a boxing bag.

What we have planned, and we are working for, is to have the best Chessboxing World Championships ever organised so far, setting the standards for such events in future. The regional and local institutions, Regione Emilia Romagna with Sport Valley and the Municipality of Riccione, are involved in the organisation of the event. Several sports organisations are giving their support to this event: first of all, **ASI** which is also giving a

MESSAGE FROM FISP PRESIDENT

generous financial contribution, then **Panathlon International**, the **Italian Chess Federation**, and the **San Marino Chess Federation**. The small Republic of San Marino will also be the destination of our **half day excursion** for the participants and their families.

Besides the Chessboxing Championships, with all the weight divisions, in all the age groups, we have organised a Chessboxing **Referee-Judge-Timekeeper Seminar** certified by the WCBO. We are planning the **screenings of three films-documentaries on chessboxing** (one Italian, one Canadian and one French) with the producers/actors in the room. We shall produce a professional **live-streaming of the fights** with commentators in the English and Italian languages. This reunion will be important also because we shall hold the **Annual General Meeting** of the WCBO, an AGM that is aiming to launch chessboxing on a global scale to eventually become member of AIMS.

Our organising team is therefore excited to invite you to come to Adriatic Sea and from **28th October to 2nd November 2023, in Riccione**, being you a chessboxer, a trainer, a referee, an accompanying person or, simply coming as a spectator. We are sure you will enjoy the time together with the chessboxing world family, which will reunite in this occasion in which we shall welcome several new WCBO members countries. Emilia-Romagna is a region famous for its hospitality and, I am sure that, Promhotels Riccione will help you find the best accommodation solution for you.

Volfrango Rizzi

President of FISP (Italian ChessBoxing Federation)

PIERRE ZAPPELLI - PRÉSIDENT INTERNATIONAL

D

Dear Sirs,

Through this letter, I hereby convey my personal greetings and those of the whole Panathlon International to all the athletes and executives involved in the World Chess-boxing Championship that will take place for the first time in Italy.

Panathlon International has gladly granted its Patronage to this important event as it has always supported and encouraged the practice of sports as an instrument of growth and training for a sport inspired by ethics, solidarity, Fair Play, and sports education.

Panathlon International is an International Movement that had its origins in Venice in 1951 and developed rapidly, first in Italy, then in Europe and later in the Latin American and African Continent.

Currently we are present with about 9000 members and 260 clubs in 31 nations on 4 continents.

Its aims are pursued through the relations developed with the IOC (by which we were recognized in 1982) and the main international and European sports bodies at the international level; through its Districts operating with the Olympic Committees at the national level and with the action of its Clubs at the territorial level.

The sport of chess-boxing has greatly interested and intrigued us as it combines two completely different sports with skills that apparently can appear almost conflictual, but that develop abilities of concentration and self-control very difficult to implement.

Congratulations to the athletes who, with their behaviour and respect for the opponent, may be an example for our young people and all those who love the authentic positive values of sports practice.

Sport is also celebration and fun in an atmosphere of friendship and sharing.

Good luck to you all for this outstanding event!

LUIGI MAGGI, FSI PRESIDENT (ITALIAN CHESS FEDERATION)

We, the Italian Chess Federation, are proud to give our Patronage to the Chessboxing World Championships that will take place, for the first time, in Italy. It is an event of extraordinary importance for a young sport that has already been able to catch the attention of fans and media around the world.

As it is well known, former World Champion Garry Kasparov has said, more than once, that chess, beyond its mental appearance, is a fighting sport, a tough competition, almost violent. Conversely boxing, the most ancient of combat sports, is not based only on brute force but, also and above all, on timing, intelligence, and the ability to foresee the moves of the opponent. This is where the two disciplines - apparently so different from each other - expose their parallel qualities, which are skilfully revealed by a sport that is a mixture of strength, intelligence, and competitive spirit.

Our hope, as it may seem obvious, is that spectators and chessboxers, watching these Championships, will be reminded the charm of playing chess in its traditional form; in a time when chess is gaining more and more followers both in Italy and around the world. In the meantime, let's enjoy the show offered by this beautiful discipline of chessboxing.

SIMONE IMOLA (TOWN COUNCILLOR RESPONSIBLE FOR SPORT)

"Riccione is proud to host the first Chessboxing World Championships to be held, not only in Italy, but in Europe too. Our town has always been open to hold international events: I am certain that, thanks to the professionalism of those working in tourism and hospitality in our territory, our town will be ready for this occasion too. To those passionate about chessboxing I recommend to make the most of this occasion and stay some days longer in Riccione: outside of the Summer season it can result to be even more beautiful".

DISCOVERING ROMAGNA**R****ROMAGNA, PLEASED TO MEET YOU***What makes us so special***A smile**

In Romagna we have fun all day, every day. Smiling brings with it many benefits and the one that stands out in particular is our ability to live every minute of the day with joy and a positive approach: Romagna, just saying it brings a smile to your face.

**With our feet in the sand**

Where can you sip a delicious coffee with wonderful sea views, surrounded by sandcastles, relax doing yoga at dawn or walk barefoot on the sand until the sun finally sets? So many questions, but only one answer - in Romagna.

The wonder of nature

Parks and nature reserves that will amaze visitors, along paths and in underground caves where you can abandon yourselves to the charm of unspoilt nature, rich in colours, sounds and vitality that will help you leave behind the hubbub of the city and tune into the bellows of the deer or the song of the nightingales.

Two thousand years of history

The land that Julius Caesar chose to lay the foundations of the Roman Empire: stubborn, strong and brave, just like the noble leader. We look to the future, proud of our roots and the past millennia that made Romagna the cradle of one of the most important civilisations.

In every city a castle

A land of beauty and fortresses, memories of the past and the great seignories enclosed in our castles, symbols of power and wealth that still astound us thanks to their majesty, the imposing remains of a history with a thousand different facets.

The land of champions

People born in Romagna learn to ride a bicycle before they learn to walk. Here, any excuse is a good excuse to get on our bikes and set off around our hills, mountains and parks; every ride affords a wonderful sensation of freedom and sights of rare beauty.

The world's biggest restaurant

Mention great food and Romagna immediately springs to mind. The flavours of our land are an asset we honour every day at the table, always in great company. Passion, culture and tradition are the ingredients that make our food an Italian excellence around the world.

The hospitality of culture

The land of Romagna is millennia old with a rich heritage of monuments, great names and works of art in a blend of ancient history, cinema and theatre. In our cities we are surrounded by timeless artistic delights, bearing witness to a land that is keen to preserve and is rightly proud of its past.

RICCIONE**WARM WELCOME AND HOSPITALITY**

These are the typical features of Riccione identity, a town that doesn't forget tradition even if it looks ahead to change and new tendencies.

As the time has gone by, the beach has changed too and has been provided with modern bathing establishments, well equipped and endowed with technological system. The hotels, the sea promenade, the historic streets for walking and shopping too have been involved in the process of change and can proudly keep up with the new buildings dedicated to sports and leisure, conferences, business and events.

The town of Riccione is known as the "Green Pearl of the Adriatic sea", a kind of jewel that reveals itself through unique places of interest and attractions. The heart of the town is Viale Ceccarini, the street that leads from the railway station to the sea: fashion boutiques and brand stores display new trends and tendencies alongside a vast array of cafes and restaurants till the pedestrian sea promenade furnished with fountains, flower beds and wooden benches.

The tourist information centre is located inside Palazzo del Turismo, the building that dates back to 1938 when it opened as the first place on the Adriatic coast dedicated to tourism advertising.

The harbour is a special place for enjoying the sea to the utmost at sunset or at dawn, seated in a cafe or in a fish restaurant, or simply on a solitary bench.

The territory nearby. Once upon a time, amidst the woods, there was a place well known throughout Europe for wine and food traditions.

In that place in the Middle Ages, many castles were built, in which princes reigned with princesses and knights. The villages developed around the castles with arts and crafts markets, the stalls and shops of woodcarvers, goldsmiths, and farriers.

In that place you could taste olive oil and fresh bread, the products of nature, salumi and cheese, homemade pasta, fresh fish. And "piada" too, a flat and soft kind of bread, whose tradition went back to 1200 BC.

Riccione is easy to reach from any national or international destination by car, by train and by plane.

Distance from the most important Italian cities:

GUIDED TOUR TO SAN MARINO

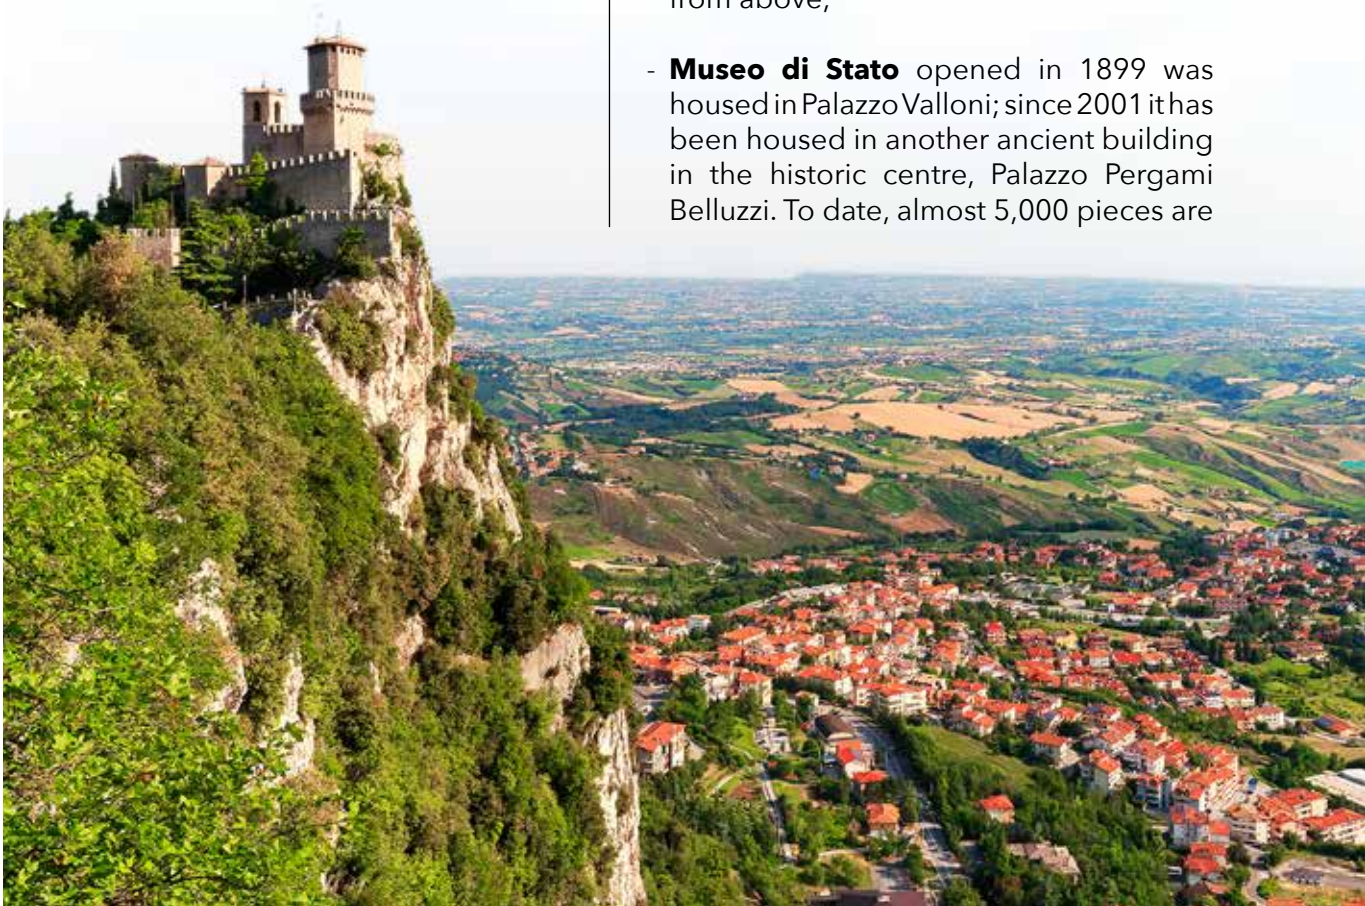

**PROGRAMME 31TH
OCTOBER FROM 8:30
AM TO 1:30 PM**

As the time has gone by, the beach we are taking you to San Marino: the oldest Republic in Europe.

San Marino gives its visitors the unique feeling of being both in Italy and abroad.

The tiny Republic of San Marino is the third smallest state in Europe and the fifth in the world, with its area of 61 km².

It is also one of the least crowded: just a bit more than 30.000 inhabitants.

According to the legend, the founding dates to 301 D.C.: in this year Saint Marino created a little Christian community on Mount Titan.

Since then, the mount and the city are independent, and never became part of Italy.

The excursion includes a guided visit to the main sites:

- **First Tower**, or Rocca, or Guaita, is the largest and oldest of the three fortresses that dominate the City of San Marino from above;
- **Museo di Stato** opened in 1899 was housed in Palazzo Valloni; since 2001 it has been housed in another ancient building in the historic centre, Palazzo Pergami Belluzzi. To date, almost 5,000 pieces are

exhibited in its rooms, including works of art, artifacts, paintings and objects, many of which originate from San Marino and relate to its history;

- **Museo San Francesco** is the main gate of the third group of walls, also called Porta del Paese, and is the official entrance to the historic center of the City of San Marino;

- **Palazzo Pubblico** is the heart of San Marino political life and its history. The Palazzo Pubblico stands on the so-called "Pianello", or Piazza della Libertà. It stands on the site of the Domus Communis Magna, built between 1380 and 1392 and repaired several times.

25 people) + entrance to paid sites (where applicable).

TERMS OF PAYMENT Payment must be paid no later than 5:00 pm on 19th October 2023 through bank transfer: Banca Popolare dell'Emilia Romagna | Filiale di Riccione

2ND CHESSBOXING-FIT WORLD CHAMPIONSHIP

To enter the **2ND Chessboxing-fit World Championship**, please refer to the age categories below and enter them into the **"FINAL ENTRY LIST Chessboxing-fit"** in the previous page.

CHESSBOXING-FIT RULES:

1. Matches

are made between two athletes. Tournaments can be made where several athletes compete in different matches, in ko format, or pools, with Swiss pairings, and other systems of grouping and pairings.

A chessboxing-fit match consists of two or, when needed, three rounds which are disputed as follow:

- 1st Chessboxing-fit World Championships (2022).
- 1st round: boxing (punches to the boxing bag);
- 2nd round: a blitz chess game;
- 3rd round, when needed: boxing (punches to the boxing bag).

2. The duration of the match

boxing round(s) 1 minute;
chess round 5 minutes;
Timeouts 1 minute between one round and the other.

3. Equipment needed

at least one boxing bag for match, if two are used they should be of the same type;
for athletes: boxing gloves, boxing

shorts, boxing jersey;
chessboard and pieces;
chessclock.

4. Rules of the boxing round(s)

- blows on the boxing bag should be done with boxing technique, which the judge assesses;
- the judge counts the strikes and applies the coefficient (1; 0.75; 0.5; or 0.25) depending on the boxing technique demonstrated by the participant;
- During rounds of boxing no one can touch the boxing bag, except for the very same athlete(s).

5. Rules of the chess round

As the chess round lasts only 5 minutes and both athletes have 3 minutes on their clock, the round of chess might terminate without a winner. In this case a third (boxing) round will be disputed.

6. Determination of the Winner:

- Early win:
the whole fight is won by the fighter who wins in the chess round by checkmating the opponent, or when is opponent loses on time or when one withdraws from the fight.

2ND CHESSBOXING-FIT WORLD CHAMPIONSHIP

One can lose in chess also for illegal moves: at the third illegal move (by the same player) the game and match is finished.

- Winning on points:
the total number of strikes counted by the referee(s), in rounds 1 and 3, are multiplied by the coefficients awarded to each fighter. The athlete with the highest points wins. Coefficients awarded to each athlete can be different in round 1 and 3; when possible the judges swap over judging a different fighter in the boxing rounds. If the final score is equal it is a draw. If a winner is needed - because of a tournament format or because there is a title at stake - the athlete with the black pieces is declared the winner.

7. Age and sex categories:

As there is no physical contact, participants of different ages and sex can compete together; final standings divided in categories can be drawn up at the end of the tournament.

The age and sex categories are the following:

- Children (male, female) below age 10;
- Cadets (male, female) 10-13;
- Juniors (male, female) 14-17;
- Adults (men, women) 18-49;
- Veterans (men, women) 50-59
- Masters (men, women) 60+ years old.

8. The RS coefficient

The RS (Rapid & Smart) coefficient is used to balance the number of strikes with the technical and tactical boxing component of chessbox-fit. The judge(s) decides on the "RS" coefficient for what one athlete has shown. The RS is then multiplied by the number of blows inflicted on the bag in the round. When selecting the "RS" coefficient, four technical components are taken into account:

- 1 Most of punches given in conformity with classical boxing technique: straight punches (do not count: hitting with an open glove, with the wrist, with the backhand, or with the side of the hand);
- 2 Protective actions: blocking, parrying, rolling, slipping, defensive footwork, and countering;
- 3 Blows performed with displacement of the body's center of gravity by means of pushing with one or two legs, with pelvis rotation and/or back rotation;
- 4 Technical actions: footwork, combinations of jabs, crosses, hooks, and uppercuts.

Coefficient Technique

1	All four technical components are present
0,75	Absence one of the components
0,5	Absence of two components
0,25	Most of blows in no compliance with boxing technique
